- Inaccurate Grade(s)
- Clubs, Societies missing
- Positions of Responsibilities

Other: csec selection subjects

Please state your complaint, include dates and name of school personnel if possible:  
(Use the back side of this form if necessary)

Good evening i have a couple issues to address. My son Adrian Wright on his report card he has a zero for French test on that particular day he had HSB exam. My question is werent the teacher inform of the fabe had external exam. This would affect his average calculation. He also got a zero for Spanish homework, my son told Mrs. Samuda Brown that he was absent and how can he get the home work done, she told him it was ok she would have given him an absent grade. This did not happen as his report card has a zero. For Physics my son receive a 97% for classwork and also average. For exam he got 54% I would love to see this exam paper. For French also he got 40% for exam when he has always done well in french. I need you to double check the grade for me and make the necessary adjustments. This is my sons future we are talking about. I sent a list for csec selection of 12 subjects I see where he was given the oppurtunity for only 8 subjects. How can we rectify this situation because I want him to do these subjects and I do think he has the potential to do so. He has always being doing well in History and he will be doing some thing in medicine therefore he needs to do all three science subjects. Can you please let me know how i can get him to do these subjects and how they can fit in his time table as soon as possible. He got a 2 in his HSB exam so I am feel very encourage by this that he is cable of taking on this challenge. I look forward for your assistance. Thank you
