to induce proper development, which in the tropics nature is apt to hasten.

Drugs cannot do the work of nature, but a food medicine like Scott's Emulsion is a thorough help, because it makes rich, red blood, more strength, and therefore more endurance to bridge over the road to womanhood.

Refuse imitations—there is nothing as good as SCOTT'S EMULSION.

Scott & Bowne, Bloomfield, N. J.

Girls who work are particularly susceptible to female ills; especially when obliged to stand on their feet from morning until night. Day and day out the whole year through, the working girl toils, she is often the bread winner of the family, and must work that others may live; whether she is sick or well, whether it rains or shines, she must get to her place of employment and perform the duties exacted from her.

The symptoms of female diseases early manifest by weak and aching backs, pain in the lower limbs and lower part of the stomach; in consequence of frequent wetting of the feet monthly periods become painful and irregular, and frequently there are faint and dizzy spells, with loss of appetite until life is a burden and it is hard work to drag about.

vdia E. Pinkham's Vegetable Compound is highly recommended for working girls and almost universally used by them.

Grand Cayman, British West Indies. — "I suffered for years with painful menstruation attended with pains across the back and hips. Having been advised by a friend to give Lydia E. Pinkham's Vegetable Compound a trial, I decided to write to you first and ask advice.

I shall not fail to recommend it to all suffering females."-Mrs. LHONA McCoy, East End, Grand Cayman, British West Indies. C If you are suffering in this way and want special advice
