

"This is the best time to pursue a career in Aviation. The demand for Pilots is very high due to a significant pilot shortage".

DAVID ROBERTSON
ACOA Director

**AVIATION COLLEGE
OF THE AMERICAS**

About Us

The Aviation College of the Americas (ACOA) is the first tertiary aviation training institution to operate in the Caribbean and Latin America.

We provide students with the opportunity to earn the Bachelor of Science (BSc) in an aviation related discipline.

Our goal is to equip our students with the prerequisites for a career in the aviation industry.

Why Register With Us?

✓ Our lecturers ensure that all our students progress at the highest level to maintain their standard of achievement

✓ Students have access to a specialized aviation program that is designed to provide them with the knowledge necessary for a successful career in the aviation industry

✓ ACOA has achieved a **graduation** rate of over 95% since the first graduation in 2017.

✓ Our graduates have been reported to be among the best transitioning to our USA based flight school Bright Future Aviation Academy.

✓ Our graduates have been accepted to the Air Wing of the Jamaica Defence Force and in January 2024 one of our 1st graduates was promoted to Captain at Delta Airlines.
